

TOWNSEND

THE TOWNSEND CORPORATION AND WIND ENERGY

A Leader in Wind Power Construction with over 1500 Megawatts completed since 2006

CAPABILITIES

CONSTRUCTION

- Electrical Collection System Installation
- Sub-stations/Switchyards
- Overhead and Underground Distribution and Transmission Lines
- Tower Wiring and Ground Grids

OPERATIONS AND MAINTENANCE

- Scheduled Inspection and Maintenance
- Electrical Refurbishment
- Procurement of materials and other services
- Project Management and Pre-flight Inspections
- Full-spectrum analysis of key electrical equipment
- Emergency maintenance, repair and project completion support

OTHER SERVICES

- Line clearance and integrated vegetation management programs
- Site restoration services
- Innovative vegetation management initiatives, such as the use of native grasses for bio-fuel alternatives as an additional revenue stream after wind farm construction.

The Townsend Corporation is a full-service provider to the energy industry. Founded in 1945, the company provides vegetation management and construction services to electric utilities, pipeline companies, wind energy developers and other infrastructure companies.

TOWNSEND

TOWNSEND'S CORE VALUES

- **SAFETY:** Safety is first and foremost with Townsend. The company is known as a leader in the industry for safety, regularly exceeding national standards, and is committed to a drug-free, safe work environment.
- **EXCELLENCE:** in performance is part of the Townsend culture. We continually strive to provide customers with the best people, the best equipment, the best management practices and a proven track record.
- **INTEGRITY** is defined by a reputation built over 70 years by maintaining family values with employees and adhering to the highest ethical standards for clients. Townsend is committed to a work ethic that gives our customers a partner they can trust.
- **RELIABILITY** is the cornerstone of the company's success. Our time-tested systems of deploying trained crews with the best equipment and highly qualified managers positions Townsend to meet or exceed our clients' expectations effectively and economically.
- **INNOVATION** drives Townsend to new levels of service and performance. From the development of specialized equipment to innovative approaches in the treatment of invasive species, we strive to continually improve productivity and efficiencies for our customers.
